EDUCATION

VIT Bhopal University, Sehore, Madhya Pradesh **Expected Graduation: 2027**
*B.Tech. CSE (Health Informatics) — **Current CGPA: 8.32*** *Bhopal, India*

Delhi Public School, Ghaziabad **March 2018 – March 2023**
*Class XII (CBSE) — **88%*** *Ghaziabad, India*

INTERNSHIPS AND EXPERIENCE

Intern at Planet Celluloid Pvt. Ltd. **Nov 2025 – Jan 2026**
DevOps / MLOps Intern *Remote*

- Contributed to early-stage **DevOps and MLOps workflow design**, gaining exposure to **CI/CD pipelines, deployment lifecycles, and automation best practices.**
- Collaborated with cross-functional stakeholders to **gather and document technical requirements and deployment workflows**, ensuring alignment during rapid team transitions.
- Applied foundational **containerization and cloud deployment concepts** while developing a basic authentication module to understand production-level systems.
- **Recognized with a formal Letter of Recommendation** for professionalism and technical contribution.

Notion Community **Feb 2024 – Oct 2025**
General Secretary – Operations Team Lead *VIT Bhopal University*

- **Led cross-functional coordination** across 5+ teams, owning end-to-end planning and execution of a large-scale on-campus community initiative.
- **Managed budgets and vendor relationships**, including expense planning, payments, cost optimization, and procurement oversight.
- **Oversaw branding, content, and on-ground logistics**, while liaising with institutional authorities (DSW) to secure approvals and finalize venues.

PROJECTS

Posture Guard – Webcam-Based Posture & Eye Care Assistant **Oct 2026**

- Built a macOS menu bar app that uses the laptop webcam and **MediaPipe Pose** to detect slouching against a personal posture baseline.
- Added posture alerts, escalating reminders, and guided stretch breaks to help users build healthier desk habits.
- Integrated eye-care checks for screen distance and blink rate, with configurable reminders and a camera-free timed mode.
- Created local progress tracking and reports for posture trends while keeping webcam frames and history on the user's Mac.
- **Tech stack:** Python, OpenCV, MediaPipe, SQLite, macOS

Dusala Growth Intelligence – B2B Lead Prioritization & Business Analytics **Sept 2026**

- Built an end-to-end **B2B lead prioritization framework** using Python, Pandas, PostgreSQL, and SQL to transform lead data into an actionable outreach pipeline.
- Developed a **Lead Priority Score** based on role relevance, connection level, premium status, and company experience to rank prospects for outreach.
- Performed **SQL-based analysis** to identify high-priority leads, company concentration, geographic distribution, and outreach opportunities.
- Designed an interactive **Tableau dashboard** featuring KPI cards, company/country analysis, priority distribution, connection-degree analysis, and a ranked lead table.
- **Tech stack:** Python, Pandas, PostgreSQL, SQL, Tableau, GitHub
